PROFESSIONAL SUMMARY

Production-grade AI Engineer specialized in building end-to-end, agentic GenAI systems. Proven experience architecting enterprise RAG pipelines, multi-agent orchestrations, and secure, full-stack web applications. Focused on reliability, security, and enterprise integration.

TECHNICAL SKILLS

- **AI/LLM:** LangGraph, LangChain, RAG Pipelines, Corrective RAG (CRAG), Agentic Orchestration, Prompt Engineering.
- **Models:** GPT-4o-mini, Claude 3.5 Sonnet, Gemini Flash.
- **Backend/Data:** Python (FastAPI), PostgreSQL 16 (pgvector), Neo4j, ChromaDB, Celery, SQLAlchemy.
- **Frontend/DevOps:** Next.js 14+, TypeScript, Tailwind CSS, Docker, GitHub Actions, Supabase (RBAC), Microsoft Presidio.

EXPERIENCE

AI Engineer | NexusBase

Apr 2026 – Present

- Developed a production-grade enterprise RAG system utilizing LangGraph for stateful agentic workflows.
- Implemented dual-storage architecture with PostgreSQL/pgvector (semantic) and Neo4j (3-hop knowledge graphs).
- Engineered multi-LLM orchestrations for CRAG and Tavily-powered web search fallbacks.

AI Engineer | Aequitas FI (Independent Open Source)

Mar 2026 – Apr 2026

- Built a hybrid SQL + RAG financial dashboard with multi-agent orchestration (o3-mini for Text-to-SQL).
- Integrated PII redaction using Microsoft Presidio and enforced strict audit trails for enterprise compliance.

Full-Stack AI Engineer | MedComply

Feb 2026 – Mar 2026

- Engineered a HIPAA-compliant SaaS platform with document RAG and organization-based RBAC via Supabase RLS.
- Automated CI/CD pipelines, containerization, and dependency management to ensure system stability.

KEY PROJECTS

- **Autonomous Dental Appointment Bot:** Built an automated scheduling system with Celery-based task management.
- **Deep Research Agent:** Multi-step LangGraph pipeline that autonomously performs web research, fact extraction, and report generation with full citation tracking.

EDUCATION

Master of Computer Applications (MCA)

APJ Abdul Kalam Technological University

2018 – 2023

GPA: 3.6/4.0
